Your honor:

Please do not allow our country to be bush-wacked by Microsoft, who uses not one but every available tactic to maintain their control over the marketplace.

By making technology appear much more complex than it really is, and then using that as a shell game to outwit the court system, Microsoft makes a sham out of our laws, and a mockery of what has allowed technology to move forward.

Please do not allow the court to be duped by this very clever group. You do not have to be a technical genius to see when you are being snookered.
